### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 8-13 and 29-35 are canceled, being withdrawn without traverse in paper filed 4/23/04.

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest, in a method of in-mold handle attachment wherein during blow molding, a portion of a blow molded container is formed about a retaining member on the handle, the step of directing a cooling medium at the portion of the container. Prior art such as Yanagisawa et al. (US Patent 5,338,503) and JP 07-068,629 teach cooling the wall portion of the preform prior to blow molding. This is done to ensure that the wall of the preform stays thicker in the area of handle attachment (column 7, lines 9-18). Absent hindsight, there would be no reason to modify these references to teach directing a cooling medium at the area of handle attachment after the container is blow molded, i.e., after the area of handle attachment is formed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Regarding the translations mentioned in the response filed 8/16/04, pages 2 and 3, all translations were reviewed prior to the first action. The translations were crossed off the IDS to prevent confusion at the time of printing.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suzanne E. McDowell whose telephone number is (571) 272-1205. The examiner can normally be reached on M, W, Th 6:30-4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Colaianni can be reached on (571) 272-1196. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
